### Note:

Belton, Hathern and Long Whatton have each joined with their nearest Shepsshed Group.

Households on both sides of each road have all been kept together.

Households which are in roads that adjoin two areas have been assigned to just one of these areas - to help achieve a more evenly balanced spread of households between them.

Group 1 includes several major housing developments - planned and under construction - and currently has the greatest potential for seeing an increase in its total number of households.
